Ask any alert manufacturer or dealer outside the automotive field what he would give for the kind of information you get from the Polk official car owners registration list. He'll tell you he would gladly pay many times what the Polk list costs.

The registration list permits you to concentrate your retail selling effort on those people most likely to be buyers.

Don't let the usefulness of *your* registration list be impaired by neglect. Keep it up to date.

And use it! It's the greatest sales help at your command.

San Francisco—Growing With The West

Equitable Life Assurance Building — Recent Landmark on San Francisco's Business Horizon

SITUATED on the shore of the broad Pacific and linked by the world's greatest bridges to the East and North, San Francisco is the market and distribution center for the 11 Western States which now number nearly 23 million residents. Vessels of every nation plying the sea lanes through the majestic Golden Gate make San Francisco the center of trade with Hawaii and the Orient.

BUSINESS IS A PLEASURE IN SAN FRANCISCO

San Francisco's ideal location and climate, with the world's most beautiful and romantic recreation areas within easy access, have made it a mecca for visitors who pour in to savor its unique attractions in increasing numbers, year by year. These same factors have contributed to San Francisco's constant growth in stature as a financial, industrial and business center, making it the hub of a nine-county Bay Area whose net buying income of 6.3 billion has risen 33 per cent since 1950.

Business Index

By every index, San Francisco business is steadily increasing. A 27.7 per cent increase in volume of general business activity in five years is testimony to its prominent position on the Pacific coast. Construction permits last year totaled $64.7 million, electric energy sales hit a new high, and retail sales totaled $2 billion.

Population and Employment

San Francisco's present population is estimated at 807,000—a gain of 31,643 since 1950. It is 11th in size in the United States but FIRST in growth per square mile of land area during the past 15 years, FIRST in per capita income and purchasing power, and FIRST as a financial market and distribution center.

Estimated civilian employment in the San Francisco metropolitan six-county area in the spring of 1955 was 1,010,600, with 462,900 employed in San Francisco alone.

Industrial Development

Steady growth of manufacturing in the San Francisco metropolitan area has resulted from the excellent transportation facilities, adequate and inexpensive power, and convenient accessibility to raw materials. And San Francisco is the "funnel" through which industrial products of the Bay Region and northern California are channeled to markets of the world.

Value added by manufacture in San Francisco grew to an annual total of $720 million in 1954—from $410 million when the last business census was taken in 1947. In the 12-county Bay Region plant expansions and new factory plants totaled more than $143 million in 1955, with San Francisco expansions alone registering $14 million.

Domestic Trade

San Francisco's wholesale trade and warehouse resources permit industry to obtain quality goods in quantity in the shortest time and at the best prices. More goods per capita are sold at wholesale here than in any other major California city. Seven major Market Week showings are held, attracting thousands of buyers. The city's 4,000 wholesalers do more than $5 billion worth of business each year. More than 1600 branch offices of national and regional firms are located here.

Port Facilities and Shipping

San Francisco has a $120 million investment in its magnificent waterfront facilities and spacious land-locked harbor capable of providing anchorage for the fleets of the world. Traditionally a waterfront city since the days of the Gold Rush of '49, San Francisco has carefully nurtured its seaborne commerce and 85 shipping lines call at San Francisco, 9 of which are headquarters in SF, to carry goods to approximately 300 ports throughout the world.

The Port Authority has expended $25 million in the past decade on modernization and improvement of facilities.

Total volume of foreign, coastwise, intercoastal and inland shipping over San Francisco piers in 1955 was 5,807,673 revenue tons, with inland waterway traffic accounting for about two million tons.

Business Headquarters

The largest bank in the world has its home office in San Francisco, as does the world's largest gas and electric utility. Here is the home office of the second largest railroad and the third largest oil producer.

Thirty national corporations with headquarters in San Francisco have assets of $28.6 billion, with banking, insurance, food manufacturing, shipping and the paper industry high on the list.

MARINES' MEMORIAL CLUB

E. O. AMES, General Manager

History of the Marine's Club

HERE IN THE VERY HEART OF SAN FRANCISCO'S business section stands the only memorial of its kind in the world. The Marines' Memorial Club, **"Crossroads of the Corps,"** is a million dollar living tribute to the Leathernecks who gave everything that those of us who remain may have something. Here any Marine from any war, regardless of rank or creed may enjoy the luxury of a swank downtown social club with its dining rooms, lounges, weekly dances, swimming pool, library, 115 hotel rooms and the Skyroom overlooking San Francisco Bay; he may enjoy all facilities, entertain guests, and there are no membership fees, dues or assessments.

Unusual, too, is the fact that every dime towards the purchase of this 12-story building and its furnishings came from the Marines themselves. Individually every Marine who saw service in World War II contributed his part through his purchases at his Marine Post Exchange.

THIS CLUB IS FOR ALL MARINES, officers and enlisted; former (honorably discharged) Marines; and the families and friends of Marines and former Marines. Associate memberships are available for hospital corpsmen and for veterans of other services who have served with Marines in time of war.

"A tribute to those Marines who have gone before, and a service to those who carry on."

The Clemco remote control valve is a new development in abrasive control for sand-blasting systems. It provides the blaster with complete "on" and "off" control of both the air and abrasive supplies from his station at the nozzle.

In many instances it eliminates the necessity of having a tender at the machine—it provides maximum safety for blasters working in confined areas such as within tank cars or ships tanks, where the instantaneous and automatic shut off feature eliminates the necessity of depending on a tender outside the tank to shut the abrasive off or on.

Check with Clemco for additional information on this practical, money-saving control valve.

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

▼

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

CAUTION . . . . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

★ *It is customary to include a Buyers' Guide in the City Directory because : : :*

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED

A STATEMENT
OF
ADVERTISING PRINCIPLES

1. Good Advertising — aims to inform the consumer and help him to buy more intelligently.

2. Good Advertising — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. Good Advertising — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. Good Advertising — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

They live today only in memory and in the relics of the Wells Fargo Historical Collection.
But the efficiency...the dependability...the exceptional service
that won Wells Fargo its reputation in the early West...these are still at your command.

Visitor in San Francisco? Be sure to see all the mementos of the exciting Old West on exhibit in the History Room at our Montgomery Street office—open every banking day from 10 to 3.

You'll always be welcome at Wells Fargo!
